

POWERVAR

ON Series Universal Mount

Tower or Rackmount Solution in One.

The On Series Universal Mount UPS provides a high performance power quality solution with universal mounting capability and scalable runtime. It has a built-in low impedance isolation transformer to eliminate electrical noise, ensuring connected electrical equipment is unaffected by the electrical environment.

The ON Series Universal Mount UPS features scalable runtime, advanced communications, MopUPS Professional Software and a low impedance isolation transformer for premium power conditioning and battery backup protection. These UPS systems are suitable for 19" rackmount applications or vertical or horizontal floor mount configurations. A 23" rackmount option and SNMP adapter options are available.

All models are UL and cUL listed and CE marked.

- Product sizes range from 700 VA to 3000 VA
- Low impedance isolation transformer
- Let through voltage is less than 10 volts normal mode and less than 0.5 volts neutral-to-ground when tested to ANSI/IEEE C62.41
- Configurable as tower or 19" rack
- Line up and match battery cabinets
- Front access user replaceable batteries
- POWERVAR's five-year product warranty (two-years on the batteries)
